Five Things You Need to Know

- **UPDATE YOUR CONTACT INFORMATION:** COVID-19 has created an increased need to immediately get in touch with or communicate information to all members of our community. Please check your information is correct in your portal. It is especially important that your cell phone and email address are current.
- **Maintain your benefits coverage.** The 2022 District contribution towards medical benefits, regardless of plan chosen or number of family members enrolled, is \$497.42 per month (or \$596.90 per tently pay period).
- **CalPERS New Plans Reminder.** Note that mandatory plan changes took place within the CalPERS offerings during the 2022 Open Enrollment. Those formerly enrolled in the PERSCare or PERS Choice Plans were automatically enrolled in the new PERS Platinum Plan. Those formerly enrolled in the PERS Select Plan were automatically enrolled in the PERS Gold Plan. If you wanted to make a different selection than the automatic rollover mentioned here, you had to log on to the SAP Employee Self Service Portal to make an election during the open enrollment period.
- **The Employee Assistance Program (EAP):** Mental health is even more important now during this time of uncertainty and COVID-19. Find out how to deal with stress and to contact our new EAP provider, LifeWorks on page 10.
- **No one is too young to save for retirement.** The average personal savings rate in the U.S. is 5.5% while most experts recommend saving *at least* 10% to 15% of your income, not including contributions from your employer. Understand how you can start saving for your future, today.

THINGS
YOU
NEED
TO
KNOW

Health Benefits Unit

Email:
healthbenefits@email.laccd.edu

Maintain Your Benefit Coverage

Enrolling in District benefits requires having worked a 20% Full-Time Equivalent (FTE) load for three out of the previous eight semesters in any combination of colleges within the District. FTE load is calculated based on the discipline you teach. Once this threshold has been attained and you have a 33% FTE load in your fourth semester, you may contact the District's Health Benefits Unit at healthbenefits@email.laccd.edu to enroll in LACCD's medical, dental, and vision benefit programs. The District will contribute \$497.42 per month toward any medical plan you choose. If you are working a 50% or higher FTE load, half of your Employee-only dental premium and the full single rate premium for vision coverage are also offered to you.

Eligibility to remain in LACCD's pre-tax benefit programs requires adjunct faculty to maintain a 33% (FTE) load. However, under the negotiated AFT1521 contract, if you lose eligibility for the District health plans in spring 2022, you may remain in your enrolled plan(s) for the remainder of the 2022 benefit year by making post-tax payments for your enrollments. If you gain eligibility in the spring, the District will continue to allow you to buy into the medical, dental and vision plans while providing a District contribution of \$497.42 per month for medical, through the end of the plan year (i.e. December 2022). In the event that you have an insufficient salary warrant to cover the employee portion of the premium costs, you must pay the District the remaining premium amount, including a 2% administration fee by check, at the beginning of each month or in one lump sum. Failure by the faculty member to pay any of the monthly premiums will result in a loss of eligibility and coverage.

Once the benefit year is over, you can opt to continue District group health benefits under COBRA (which requires the employee to pay the full amount of the premium plus a 2% administrative fee). You have only 60 days to elect COBRA coverage so it is imperative that you contact the District if you become ineligible, but don't receive a letter from CalPERS (the District's medical benefits administrator). You would then have to send the full COBRA payment for medical, dental and vision to the District prior to the start of each month of coverage. COBRA coverage may last up to 18 months.

EXAMPLE

Jennifer, an adjunct faculty member, has been enrolled in the Los Angeles Community College District's health benefits program since she became eligible, with her fourth semester of teaching part-time. She's happy with her plan and pays extra to include her husband and children in the program. In March, Jennifer went to the doctor for her child's appointment and paid the office visit copay. A month later, she was surprised to get a bill for the entire visit and labs. The cost of the examination was far more than she had ever paid at the negotiated insurance rate. When Jen looked into the matter, it seems that she had lost her coverage with the District because her assignments for that spring semester had fallen below the threshold for eligible enrollment. She had not read a letter sent from CalPERS, letting her know that her benefits were ending, and now she had no health insurance. In this example, Jen should have read the letter from CalPERS informing her of her benefit loss. The letter would have included information on how to enroll in COBRA coverage within 60 days of her loss of coverage to continue the District benefits into the spring semester. As loss of coverage is a qualified life event, Jennifer also could have looked into Covered California options to see if she was eligible for government assistance.

NOTE: 2022 MOU for Adjuncts

For the 2022 plan year if you, as an adjunct member, lose your eligibility for health care coverage, the District will continue to pay its portion of the premium through December of 2022. As long as you are able to continue to pay your portion, you can maintain your coverage. If you are unable to do so, the coverage will lapse.

Maintain Your Benefit Coverage

So what can you do to ensure your benefits remain stable and uninterrupted?

- ⇒ Make sure your department chair is aware that you receive health benefits through the District and that benefits are dependent on you retaining a 33% FTE load
- ⇒ Check your list of assignments on the District website at www.laccd.edu (not just the schedule of classes) under Faculty/Staff “View Your Roster.” Make sure that the online system has correctly recorded the assignments allotted to you, and if not, let your department chair know
- ⇒ If you have not been assigned the requisite 33% load, you may want to inquire if there are late start courses or dual enrollment high school classes available for you to teach—anywhere in the District. If you manage to snag a last minute course, make sure that your department chair immediately puts the assignment into the scheduling system for upload to the SAP system so there is no disruption in benefits
- ⇒ If you get a last minute substitute position, again, make sure that you are noted as the teacher on record in the District system so that this assignment helps you reach the 33% threshold for benefits
- ⇒ Finally, if you do lose benefits, make sure to respond to the HBU notice sent via US mail within the required 60 days and let HBU know that you are interested in continuing with COBRA coverage, so there is no lapse in coverage

Cycling in and out of the District’s health benefit coverage can be challenging for adjunct faculty. However, some of the suggestions above may help you maintain your benefits and smooth out potential problems that may be encountered within the program.

Adjunct faculty who had coverage in fall 2020 will continue to have paid coverage during the months of January and February since their tenthly salary payments in fall cover those months of coverage. Those who enrolled for 2022 benefits for the first time during the fall of 2020 Open Enrollment period do not have to do anything. Their coverage (along with those already enrolled) will begin in March 2022.

Adjunct faculty who gain eligibility (did not participate in the District’s health benefits program during the preceding Fall Semester, newly eligible or re-eligible) will be notified by the District if their spring assignment qualifies them for health benefits for the spring semester. Health benefits coverage for the spring semester will run from March through August. Between January 1 and January 31, adjuncts have to submit a paper application for participation in health benefits for spring (March—August).

Coverage Period	Premium Deductions	Receives Fall Assignment that is ≥ 0.33	Receives Fall Assignment <0.33
March to August	Five payments (February—June) will be applied toward six months of coverage (March—August)	Automatically continues into the next cycle: September—February	Coverage automatically continues into September—December cycle with District contribution (Employee is responsible for 2% administrative fee on employee portion. Employee may make payment to the District directly if their paycheck does not cover the employee’s remaining contribution.)

Injured at Work? Know your Options

What is Workers' Compensation? Under California law, employers provide restorative benefits to employees injured at work. The main qualifying question to consider when determining whether an employee's injury is workers' compensation eligible is "Did the injury/illness arise out of the employment and within the course and scope of the employment?"

What should you do? The first point of contact for all employee injuries is Company Nurse (855-602-5264). Company Nurse provides the initial intake and assessment and will provide appropriate information and direction (including referral to a medical facility if necessary). Be sure to make note of the date and time you called, with whom you spoke, and what was discussed.

In order to file a claim, three forms are completed—the **Supervisor's Report of Injury or Illness** form, the **Employee's Claim for Workers' Compensation Benefits** form, and the **Employer's Report of Occupational Injury or Illness** form. The forms can be obtained at the Sheriff's office at your campus. They can then be sent to Ross Lee at LeeRG@laccd.edu.

The Claims Process. If a claim is not witnessed, is reported late, requires medical treatment before filing, stems from a short work history, does not provide specific incident information or the claimant suffers from cardio/pulmonary/stress injuries or illnesses, has a history of disciplinary actions, or is a part-time employee, the claim will likely require additional documentation. Claims requiring additional documentation are allowed a 90-day delay period of investigation to gather and verify facts, obtain any prior medical records, schedule a medical exam, obtain statements, and investigate any prior claims.

Pre-Designation of a Preferred Physician. If you would prefer to designate a specific physician to be your eligible workers' compensations claims doctor should you need to file a claim, be sure to do so prior to any potential claim for injury. You can find the designation form by going to laccd.edu and selecting Departments > Business Services > Risk Management > Workers Compensation > Forms, and selecting the form at the bottom of the page titled "Statement of Employee's Pre-Designated Physician and Employee Consent Form."

Additional Questions? Communication during the workers' compensation claims process is key. If you have any further questions about the process, please reach out to the Risk Management team at CostanL@email.laccd.edu.

Mental Health & Wellbeing

Mental Health

1 in 5 American adults is currently living with a mental health condition.¹

3 in 4 employees have struggled with an issue that affected their mental health

Substance Use

1 in 7 people will develop a substance use disorder at some point in their lives.²

3 in 4 people living with a substance use disorder are in the workforce

When employee mental health suffers, everyone pays the price

Mental health conditions are:

- **The single greatest cause of worker disability claims¹**
- **Attributed to 62% of missed workdays²**

Employees with untreated mental health conditions have **higher heart attack and stroke risk.**³

Employees with severe mental illness are **2x more likely to develop type 2 diabetes.**⁴

Untreated depression costs employers an extra \$15,702 per employee, per year in health care costs, absenteeism, and lost productivity.⁵

No one is too young to save!

A 65-year-old couple retiring today will spend, on average, a total of \$285,000 out of pocket on healthcare (before factoring in long-term care, dental or premiums) according to Fidelity Investments.

It is never too late to start. If you do not currently contribute towards a retirement plan, it may be time to consider starting. If you can manage it, most financial advisors recommend you save 10%-15% of your income for retirement, starting in your 20s. If you are not sure 10%-15% is realistic now, a good rule to live by is the 4% rule. This suggests that your money might last about 30 years if you withdraw just 4% in the first year and adjust for inflation in subsequent years. There are, of course, some flaws to the rule, but it is helpful as a rough guide.

You can contribute money either on a pre or post tax basis. If you were to contribute money on a **pre-tax** basis, which means the money would be taxed when you take it out during retirement. On the other hand, if you put away **post-tax** money (meaning you pay taxes up front) then the money will not be taxed when you take it out for retirement.

What retirement plans are available? LACCD offers retirement plan options through both a 403(b) and 457(b) plan.

403(b): A retirement plan established for the benefit of employees of public schools and certain tax-exempt organizations, such as LACCD. These plans accept payroll-deducted contributions for participant directed investing and are intended to help employees meet long-term objectives for retirement. The main difference between a 403(b) and a 401(K) are lower administrative costs.

For more information on 403(b) plan offerings and to see a list of vendors available, be sure to visit www.403bcompare.com

457(b): A type of nonqualified, tax advantaged deferred-compensation retirement plan that is available for governmental and certain non-governmental employers in the United States. The employer provides the plan and the employee defers compensation into it on a pre-tax or after-tax (Roth) basis.

More Information: Please visit LACCD's retirement page for more information on both plans: <https://www.laccd.edu/Departments/RetirementServices>

TIPS TO KEEP IN MIND

- When seeking information on these plans, be sure to do so directly through LACCD HR. You might occasionally receive offers to discuss your plans with third parties but these can have hidden fees so it is safer to go directly through your employer.
- The 403(b) and most 457 plan contribution limits for 2022 have a maximum of \$19,500. You may contribute separately up to \$19,500 in both accounts.
- For those 50 and over, the catch up contribution limit is an additional \$6,500, for a total of \$26,000.

Begin Your Retirement Planning Today

You can start preparing for retirement now, no matter your age or current stage in life. Whether you're nearing retirement age, retiring early, or retiring due to disability, it is never too early to start thinking about your future. Stay informed on your path to retirement and make sure you are on the right track with the following resources. Registering and accessing your accounts are the first steps in the right direction.

LACCD's Retirement Resources The District has many resources available on its website to help you understand what is needed in the years before and leading up to retirement. Visit the web address below to view these resources:

<http://laccd.edu/Departments/HumanResources/Pages/Retirement-Information.aspx>

Social Security Administration On the Social Security Administration website you can change your address, manage your benefits and even check your statement containing information regarding your current status. To start, follow these easy steps below:

1. Go to the Social Security Administration website at: www.ssa.gov
2. In the top right corner, select "SIGN IN/UP".
3. On the next page click the box that says "mySocial Security".
4. If you have never logged in before, select "Create New Account". (If you forgot you created an account, the system will remind you and you can go through the appropriate steps to recover your information).
5. Once your account is set up and you are logged in, you can view your Social Security Statement, Benefits & Payments, order a replacement Social Security Card and more!

If you have questions you can call (800) 772-1213, 8:00 am - 5:30 pm, Monday - Friday.

CalPERS The CalPERS website will allow you to access real-time details about your account. You can view your health information, plan for retirement, enroll in educational offerings or schedule appointments. Follow these steps to begin:

1. Go to the CalPERS website at: www.calpers.ca.gov
2. In the top right corner, select "myCalPERS Log In".
3. Log into your existing myCalPERS account or select "Register Now" to create a new account.

Still have CalPERS questions? Call (888) 225-7377, Monday - Friday, 8:00 am - 5:00 pm.

CalSTRS On the CalSTRS website you can access your Retirement Progress Report, manage beneficiaries, view account balances, complete and submit CalSTRS forms, and much more! Follow the steps below to get started.

1. Go to the CalSTRS website at: www.calstrs.com
2. In the top right corner, select "myCALSTRS Login".
3. Log into your existing account or select "Register Now" to create a new account.
4. If creating a new account, select "Start" to authenticate your account and enter the personal information on the following page to complete registration.

If you still need further assistance, call (800) 228-5453, Monday - Friday, 8:00 am - 5:00 pm.

+ CALSTRS

Social Security, CalSTRS and You Get the facts on two federal rules that may affect you. As a California public school educator in CalSTRS, you do not contribute to Social Security, so you will not receive a Social Security benefit for your CalSTRS-covered employment when you retire.

If you or a spouse paid into Social Security through non-CalSTRS covered employment, two federal rules, the Windfall Elimination Provision (WEP) and the Government Pension Offset (GPO), may be used in the calculation of your Social Security benefit. Social Security is a federal program, and neither CalSTRS nor the State of California has control over eligibility requirements or benefit calculations. These rules affect only your Social Security benefit. Your CalSTRS retirement benefit will not change.

What does this mean for me? Use the calculators at the Social Security Administration's Information for Government Employees page to see how the formula will affect you. Go to ssa.gov/gpo-wep for more information, including links to calculators that can provide personalized estimates.

Medicare Part B Reimbursement

The District will begin accepting reimbursement requests for retirees' Medicare B premiums in late January 2022 through April 30, 2022.

This initial period is for reimbursement of Medicare B premiums paid from 7/1/2020 to 12/31/2020 and 1/1/2021 to 12/31/2021. Please review the FAQs below; further instructions will be going out in late January.

WHO IS MANAGING THE REIMBURSEMENT?

The District's FSA/HRA vendor, ASIFlex, will be managing the reimbursement process. If you have an existing HRA account with ASIFlex, you do not need to do anything at this time. If you exhausted your HRA prior to retirement and no longer have an active HRA, you will need to set up a username, password, and security image with ASIFlex:

Go to www.asiflex.com, click on "Employee Login" and then "Create an Account"

WHO IS ELIGIBLE?

Eligible retirees and spouses as covered in the Master Benefits Agreement (MBA) III. B. – G.

Surviving spouses are also eligible.

WHAT DOCUMENTATION DO I NEED TO PROVIDE?

For Medicare part B reimbursement retirees do not have submit proof of payment. You need to submit your copy of the "Notice of Medical Insurance Enrollment and Premium Deduction", or "Proof of Income" letter from the Department of Health and Human Services (HHS)." You may also submit your their SSA-1099 statement for reimbursement.

DO I NEED TO BE VESTED FOR DISTRICT BENEFITS TO RECEIVE REIMBURSEMENT?

Eligibility and amounts for the Medicare reimbursement follows the same vesting schedule as the District's vesting for contributions to retiree health care premiums:

Eligible retirees with less than 10 years of service at time of retirement are not eligible for any reimbursement.

- Eligible retirees with 10-15 years of service will receive 50% reimbursement.
- Eligible retirees with 15-20 years of service will receive 75% reimbursement.
- Eligible retirees with 20+ years of service will receive 100% reimbursement.

HOW MUCH WILL I BE REIMBURSED?

Your reimbursement amount depends on your District vesting for benefits and when you retired. Because the agreement was effective 7/1/2020, you will receive only 50% of premiums you paid in 2020, subject to your vesting percentage.

WHEN CAN I EXPECT TO SEE MY REIMBURSEMENT CHECK?

The initial period to submit a reimbursement request of Medicare B premiums that you paid from 7/1/2020 to 12/31/2020 and 1/1/2021 to 12/31/2021 begins in January 2022 and ends on April 30, 2022. Checks will be issued in early May 2022.

In 2023 and going forward, ASIFlex will accept reimbursement requests between 1/1/2023 and 3/31/23. Reimbursement checks will be processed within 2 weeks of all applicable documentation being received by ASIFlex.

CAN I SUBMIT REIMBURSEMENTS FOR PRIOR YEARS, OR AFTER THE DEADLINE?

Reimbursement of earlier years' premiums is not permitted. You may submit a request for reimbursement only for the prior year's premiums paid, not for premiums paid more than one year earlier. You must submit reimbursement requests by the deadline (For 2022, April 30; for 2023 and going forward, March 31). Late requests cannot be honored.

Four Pillars of Mental Health

We all know the importance of physical fitness in keeping us healthy and vibrant throughout our lives. What you may not know is that mental fitness is equally important. In fact, the two are intertwined. Neglecting your mental health can make you less resilient to life's ups and downs, leaving you more likely to make poor lifestyle choices. You can only achieve mental fitness if your body is functioning well.

What is mental fitness?

Just as there are four components to physical fitness—cardiovascular endurance, strength, flexibility, and a healthy weight—there are four components to mental fitness. These are:

1) Emotional. This includes self-acceptance, self-esteem, resilience, and the ability to manage strong emotions.

2) Social. Friends are important because they bring companionship, support and enrichment to our lives. According to the Mayo Clinic, people who have friends are generally physically and emotionally healthier and enjoy a better quality of life.

3) Financial. According to a 2018 study, more than half of Americans experience anxiety due to money issues. Financial wellness is not about having a certain amount of money at your disposal; it's about feeling in control of your finances, being able to handle financial setbacks, and being on track to achieve your financial and life goals.

4) Physical. Mental and physical fitness and health are intertwined. You can improve both through a healthy diet, regular exercise, and enough sleep. You can also reduce your risk of developing chronic illnesses such as diabetes, cardiovascular disease, and depression.

Taking steps to build your mental fitness enhances our ability to cope with stress and improves your physical health, productivity at work, relationships, and overall happiness. If you would like more support as you work to build your mental fitness, call your employee assistance program (EAP) at 1-800-581-1485.

EAP: Get the Help You Need

LifeWorks isn't just an app – it's an innovative wellbeing solution in an easy-to-use **online platform and app** with all the tools you need to be healthy and happy. LifeWorks makes it easier to access a confidential employee assistance program (EAP) and your workplace community. **Take a minute and join today!**

Why you should join LifeWorks

1. Feel supported 24/7, 365 days a year with a confidential support service for all of life's stresses, whether you're expecting a baby, going through a divorce, feeling lonely or feeling overwhelmed at work.
2. Choose Snackable Wellbeing topics from leading experts you're most interested in improving.
3. Stay connected with what's happening across the organization.

Get started using LifeWorks online

Mandatory TB Notice

Mandatory TB Risk Assessment for LACCD

Mandated by California Education Code 87408.6, TB Risk Assessment has to be updated every four (4) years. In the months to come, you will be receiving an email from ESC Human Resources which will include the TB Risk Assessment form and directions on where or how to complete it for those employees who were assessed or tested starting in June 2017 when the District provided medical professionals from Adventist Health Occupational Medicine Center in Glendale to initiate the new public health rule.

Given COVID-19 and social distancing, the District is re-assessing existing practices in the implementation of the TB Risk Assessment process. We are requesting that completed Risk Assessment Forms be returned as a digital file. HR is working on securing a place where employees can email their form to a health care professional that will certify and email the form back. We are working on having a health care professional in place to complete the skin test or lung x-rays at no cost to you for those who are unable to work with their medical providers who are able to provide this service through insurance via an on-line telemedicine appointment.

More information will be emailed to you in the months to come.

Support Systems

How to Ask for Help

Asking for help seems to come naturally for some, but for others, it is anything but easy. The need to feel independent is a highly valued virtue, especially in professional settings.

Even so, trying to do it all alone seldom produces the best outcomes. When you are chronically exhausted and overwhelmed, you are unable to deliver your best work, so knowing how to ask for help is vital.

To ask for help, you first need to know how to recognize when you need it. This may require you to pay more attention to how you respond in certain situations. How do you respond to stress? How do you know when you have reached your limit? The answers can help you understand when you need help. Getting comfortable with asking for help can take time, but it can make your life a whole lot easier.

Here are some tips for when you need to ask for help:

Recognize when you need help

Know your limits and manage your energy wisely. When it comes to asking for help, the earlier the better.

Be clear about what you need

When you do ask for help, explain exactly how the other person can help you. What specifically do you need help with?

Ask the right person

Seek help from someone who possesses the specific skills needed for the task at hand. Otherwise, you might end up further behind.

Be helpful in return

Extend help to others when you see them struggling. Just remember to always get permission first. Your help may not be as needed or wanted as you think it is. Jumping in to “fix” other people’s problems for them without their permission can backfire.

Building Community Consciousness

People who feel connected to a community are generally healthier and happier. That is because having strong support systems makes it easier to move through life’s challenging moments. Feeling a sense of belonging is an integral component of wellbeing.

Communities are typically comprised of people with shared interests and values. Most likely, your community includes your family, neighbors, and a few others you interact with frequently. As you consider your own community, ask yourself this question: How connected are you?

One study conducted by the Pew Research Center¹ found that only about 30% of Americans know all or most of their neighbors. Community consciousness, which is defined as a community’s “level of awareness of its current social, economic, and environmental situations,” requires a willingness to branch out and become more aware of what is happening beyond your own family and inner circle. It requires acknowledging and accepting the diversity among members of your community, and it involves actively seeking common ground.

One way to expand your community consciousness is through volunteerism. Volunteering enables you to connect more deeply with others in your community. Having conversations with people outside your usual networks can expand your perspectives and give you more insight into the challenges that others face.

In connected communities, everyone benefits. The more connected you feel, the more support you can give to others—and the more support you will receive in return.
