

ADDENDUM No. 1

TO RFP No. 20-07 & RFP No. 20-08

QUESTIONS AND ANSWERS AS SENT BY

PROPOSERS

1. In Section 15 of the sample form the requirement is Business auto liability insurance for \$1 million combined single limit, including owned, non-owned and hired autos. Will you accept **scheduled autos** as opposed to **all owned autos**? **The answer to this question is:** *The request from the vendor is acceptable - "scheduled autos" is a sufficient scope of coverage for the work contemplated.*

2. I am reaching out with a question with regard to the requirement under Section 3.3.10 (Proposal Content: *Authorization to do Business in California*) that states each Proposer must provide a current business license issued in California or if the Proposer is a corporation, it must be approved to do business in the State of California.

Our firm is a subchapter c Virginia corporation, with a Virginia business license. In many cases, our Virginia license has been accepted as completing this requirement for municipalities in other states as there is some reciprocity between the filings and licenses. Would this be the case under this RFP or would we be required to register in California as well prior to submitting our proposal? **The answer to this question is:** *The corporation needs to be registered to do business in CA when submitting its proposal.*
