a. Informal Resolution

When a dispute arises over DSPS recommended support services and/or academic accommodations, all parties are required to seek informal resolution, before proceeding formally. In an effort to resolve the matter informally, the student should schedule a meeting with the person(s) involved in the dispute, as well as the person's immediate supervisor, the corresponding Dean of Academic Affairs, and a DSPS professional.

9. COURSE AND PROGRAM REQUIREMENT ACCOMMODATIONS

a. Purpose

A course or program requirement accommodation is an academic adjustment, in which an alternate means of fulfilling a course or program requirement is permitted. Such accommodations may include, but are not limited to, substitutions or waivers of specific course or program requirements and/or substitutions or waivers of course or program prerequisites.

While the LACCD expects all of its students to master the necessary educational competencies and to complete all program requirements prior to the awarding of degrees and certificates, the District also recognizes that a disability may preclude a student from meeting

all educational competencies or from completing program requirements in the same manner as non-disabled students. The District also recognizes the need to accommodate students with documented disabilities to the greatest extent possible without compromising a disabled student's course of study and without compromising the integrity of any student's award (i.e., degree or certificate).

The District recognizes that most students with disability-related educational limitations can meet course or program prerequisites and successfully complete academic requirements. This may not be the case for some students with disability-related educational limitations. If appropriate support services and accommodations are determined to be insufficient to enable a student to meet a course or program prerequisite and successfully complete academic requirements and/or if the student can show that his/her disability-related educational limitations are of such magnitude that meeting the prerequisite or successful completion of the program requirement is precluded, the student may petition for a course or program requirement/ prerequisite accommodation. For these students a course or program requirement/prerequisite accommodation will be considered by the college on an individual basis under the conditions described below.

A course or program requirement/prerequisite accommodation will be considered only if the college determines that the student would not be able to successfully complete the requirement even with the provision of all support services and other accommodations for which the student is eligible. A course or program requirement/prerequisite accommodation may be granted only when there is evidence that the student has exhausted all viable alternatives for meeting established course or program requirements/prerequisites.

Course or program requirements that the college can demonstrate are essential to the course or program of instruction, or are directly related to applicable licensing and/or health and safety requirements, will not be altered.

NOTE: LACCD students must note that licensing agencies, other educational institutions, or employers may not recognize course or program requirement/prerequisite accommodations granted by the LACCD.

NOTE: Requests for substitution or waiver of program requirements not established by the LACCD should be addressed directly to the transfer institution or licensing agency where they were established.

b. Eligibility

In order to file a Course or Program Requirement/Prerequisite Accommodation Request, a student must be deemed eligible under the provisions of Section 4(a) of this regulation.

c. Criteria for Granting a Course or Program Requirement/Prerequisite Accommodation Request

In order for the Course or Program Requirement Accommodation Committee to consider the student's request for a course or program requirement accommodation, the committee must determine that the following conditions have been met:

1. The student has made a good faith effort to complete the course or program requirements/prerequisites in question, including but not limited to:
 - a. consistent and persistent effort in attempting course work and/or documentation which definitively predicts the student would not be successful in the course in question. (OCR, 1997)
 - b. regular class attendance, completion of all assignments;
 - c. use of all appropriate and available recommended services, such as tutorial assistance or instructional support classes and labs;
 - d. use of all appropriate and available DSPS-recommended support services and academic accommodations, such as test-taking assistance, alternate media formats, and assistive technology.

2. The student is otherwise qualified to meet the LACCD course or college program requirements/prerequisites, which may include but not be limited to:
 - a. demonstrated success in completing required coursework;
 - b. success in courses that demonstrate equivalent skills to the course or program requirement/prerequisite under consideration.
 - c. granting the request would not require a fundamental alteration to an essential component of an academic or vocational course or program of study.
