Background: Univision radio – K-LVE is the number 1 Spanish contemporary radio station in Los Angeles across all age groups. Los Angeles Valley College (LAVC) is choosing to advertise on Univision because of their large share of the Latino radio market in Los Angeles and because their listener profile so closely matches LAVC's population and the population LAVC is trying to reach. To reach the maximum audience, Los Angeles Valley College (LAVC) is contracting for radio spots during the morning and afternoon drive time.

C. Authorize a lease agreement with Auto Auction Group Inc., (dba Cars 911) and the Van de Kamp Innovation Center (VDK) for the use of the unimproved parking lot (along San Fernando Road, measuring approximately 7,060 sq.ft.) at VDK Center to provide 60 parking spaces, 24 hours per day, 7 days a week, during the period March 9, 2017 to March 8, 2018, inclusive. Total estimated income: $28,800.

Background: This agreement is being issued pursuant to California Education Code Section 81378.1 which allows for the letting of the lease for a period of more than five days but less than five years. This Education Code provides for this lease to be made without the need to acquire formal or informal bids or proposals. In addition, the Education Code requires public notice of the intent to take this action and advertise once a week for three (3) consecutive weeks prior to the Board action. The VDK Center staff arrived at the fair market value by review of other comparable local facilities and rates for outdoor parking, as well as previous rentals of other local community colleges. The evaluation will use a mixed-methods approach, incorporating qualitative and quantitative data to provide evidence of program effectiveness and inform continuous improvement efforts. The evaluation will include (1) a summative evaluation employing a rigorous quasi-experimental design to assess the impact of STEM Pathways participation on student outcomes, and (2) a formative assessment including quantitative and qualitative measures of implementation to provide feedback for improvement. The cost is divided between the parties involved, with the AFT Staff Guild 1521A and LACCD each paying fifty percent of the Neutral Arbitrator costs. Funding is through District Office Personnel Department legal funds.
V. RATIFY ACCEPTANCE OF DONATIONS

Ratify the following donations and express appreciation to the donors for their contributions to the District's educational program.

A. Los Angeles Trade Technical College

B. Software donation from AF Technology of the AIMS 360 Program to be used in the Fashion Design Department.

Software will assist students learning about Fashion Merchandising and is valued at $912,000 by the donor.

VI. ADOPT FINDING OF BIDDING IMPRACTICABILITY AND AUTHORIZE AN AWARD OF CONTRACT TO PURCHASE SOFTWARE

Authorize the following actions to provide an exception to the public bidding requirements under Public Contract Code section 20651 due to impracticability and authorize a contract with Sirsi-Dynix to procure a two-year software license between July 1, 2017 and June 30, 2019, inclusive, for a library management system used by all nine (9) colleges in the amount of $321,666.00 which includes maintenance services fees, an upgraded cloud server and additional security enhancements.

A. Adopt a finding of bidding impracticability as established by case law authority in Graydon vs. Pasadena Redevelopment Agency which exempts a public agency from formal bidding if the process poses a significant disadvantage to the public entity and makes it impossible to obtain what is required in the procurement.

B. Authorize a two-year software license to provide library management system software currently utilized by all nine (9) colleges which includes a maintenance service fees, upgraded cloud server and additional security enhancements.
Background: Currently, all nine (9) college libraries utilize the SIRSI library management software to catalogue and facilitate the circulation of library books and media. The California Community College State Chancellor's Office will be shortly issuing a Request for Proposal (RFP) to purchase a statewide integrated library system for all 113 Community Colleges in the amount of $6 million dollars. The chosen integrated library software management system will allow resource sharing across all community colleges and will provide a common interface for all community college libraries. The RFP process may take upwards of 24 months from procurement to software installation.

The two-year license agreement is an interim measure until the integrated California Community College library management system can be procured and implemented. It would be impractical and cost prohibitive for the colleges to procure a new library management system only for two years only to scrap this system and migrate to the new system procured by the State for all California community colleges.

Failure to license the new updated software system with upgraded cloud server and security enhancements may lead to system failure resulting in unrecoverable data loss and inability to report data needed for Student Success Services Programs (SSSP) and Equity grants. Moreover, training staff and configuring software which will only be used for two years is an impractical and imprudent use of district funds and resources.

Funding will be provided through College Library Funds from each college to pay its own licensing fees with maintenance services fees paid from district-wide funding.

I. Background:

Project Description

This project will demolish existing buildings and will provide site utility upgrades, street improvements, surface parking, and a new educational facility building.

Please refer to Lead Construction Counsel’s Memorandum which accompanies this report and provides further Project Description.

II. Design Build Delivery Method:

A. District’s Prior Adoption and Recognition of the Design Build Delivery Method.

The Design-Build delivery method was adopted by the Board of Trustees on December 3, 2003 (Com No. BSD5) as a delivery option District-Wide.

Education Code sections 81700 et seq. specifically authorizes community college districts to utilize the Design-Build delivery method as a safe and cost efficient alternative to competitive bidding because the Legislature has determined that it can produce accelerated completion of projects, provide for cost containment, reduce construction complexity, and reduce exposure to risk for community college districts. The Legislature has also determined that the cost-effective benefits to community college districts are achieved by shifting the liability and risk for cost containment and project completion to the DBE.

The foregoing Code sections also: A) recognize and permit that the full scope of design, construction, and equipment awarded to a DBE under the applicable Code sections can be authorized in a single funding phase and that a community college district can award Design-Build agreements on a "best value" (qualitative selection) basis; and B) require that the governing board of a
community college district make written findings that use of the Design-Build process will accomplish one of the following objectives: (i) reduce comparable project costs; (ii) expedite the project’s completion, or (iii) provide features not achievable through the traditional “design bid build” project delivery method.

B. District’s Evaluation and Written Findings regarding the Statutory Requirements to Use the Design-Build Delivery Method for the Subject Project.

Subsequent to review of the objectives, the Design-Build delivery method should be used for this procurement because it will: A) expedite the project’s completion and provide features not achievable through the traditional design-bid-build method including cost containment, B) reduce construction complexity, and C) reduce exposure to risk for the District, for the reasons expressed in Lead Construction Counsel’s Memorandum which accompanies this Report.

C. Pre-Qualification Process for Design-Build Entities and Award of the Design-Build Agreement

As permitted by the applicable Code sections, the District’s pre-qualification process was utilized which was then followed by the solicitation of pricing proposals from those Pre-Qualified DBE’s for this procurement seeking the “best value” proposal for the procurement.

Utilizing the foregoing processes, a proposed awardee for this procurement which will provide the best value to the District is identified in this report for the reasons stated above and below.

The applicable Code sections also require the District’s governing Board to issue a written decision supporting its award and stating in detail the basis of the award as set forth in the proposed Resolution (Attachment 1). By way of adoption of the proposed Resolution, the Board will announce its award by: (1) identifying the successful DBE; (2) stating the winning DBE’s price proposal amount; (3) stating its overall combined rating on the Request for Proposal evaluation factors; (4) setting forth the winning DBE’s price proposal amount and rating as compared to all other responsive
The selected contractor is proposed as the result of a competitive Request for Qualifications (RFQ)/Request for Proposals (RFP) process. Seven (7) responses to the RFQ were received. Seven (7) applicant RFQ submissions were identified as responsive and three (3) were deemed qualified Finalists and received the RFP. The Statement of Qualifications submitted by the Applicants were scored by the Project Evaluation Committee which was comprised of the LACCD Director of Facilities, Planning and Development; the Program Management Office (PMO) Director of Design; the
Associate Vice President of Administrative Services for East Los Angeles College/South Gate Educational Center; the PMO College Project Director; and the PMO Regional Program Liaison.

The Resolution (Attachment 1) contains further details which should be considered as part of Com. No. FPD2 - Staff’s Report and Recommendation to the Board – and which is incorporated herein as if set forth at length hereat.

III. Award – Staff Recommendations:

Staff recommends that the Board adopt a resolution (Attachment 1) for use of the Design-Build delivery method for the Project; 2) ratify Staff’s conduct regarding the procurement process; 3) award the Design-Build Agreement described herein above; and 4) take such further action as is set forth in the proposed Resolution (Attachment 1).

IV. Award History:

This agreement represents the eleventh (11) award to this company through the Bond program and a cumulative award total of $310,106,264. Previous awards to this company include the School of Math & Science project at Los Angeles Southwest College and the Science Career and Mathematics project at East Los Angeles College.

V. Funding and Development Phase

Funding is through Proposition A/AA and Measure J Bond proceeds. ELAC - South Gate Campus - South Gate Educational Center 22G.8261.02.01, 32G.5261.02, 32G.5261.02.01.

RESOLVED, That the Board adopts, as the Board's own findings, Staff's findings regarding why the Design-Build delivery method should be used for this Project, including those findings set forth in Staff's Report and Lead Construction Counsel's Memorandum, and hereby finds that the use of the Design-Build process will (i) expedite the project's completion, and (ii) provide features not achievable through the traditional design-bid-build method, to wit (a) ensure cost containment;
(b) reduce construction complexity; and/or (c) reduce exposure of risk to the District, all for the reasons stated in Staff's Report and the Memorandum from Lead Construction Counsel which are incorporated herein as if set forth at length hereat; and be it further

RESOLVED, The Board ratifies Staff's use of the Request for Qualifications and Proposal process for this procurement which has identified a Design-Build Entity using a "best value" selection method for the reasons stated above which the Board hereby adopts as its findings; and; be it further

By: ____________________________ Date: ________________
Background

On December 3, 2014 (Com. No. FPD2), the Board of Trustees approved the Agreement with Balfour Beatty Construction ("Contractor") for the Project. In addition to the Agreement, the Board approval included the issuance of a Site Lease and Facilities Lease for the Project. The Board also authorized Staff and the Contractor to proceed with pre-construction services, to obtain any Division of the State Architect (DSA) approvals needed, and to establish a final proposed Guaranteed Maximum Amount for Construction through competitive bidding of the subcontractor trade packages (i.e., scopes of work) that was within the estimated cost of construction in the amount of $16,485,377 ("Project Budget").

The pre-construction services are now complete. DSA project approval has been obtained. The Contractor has solicited, evaluated and reviewed competitive bids for the subcontractor trade packages. Staff also reviewed and evaluated same. Staff and the Contractor also engaged in certain value engineering efforts to reduce the bid amounts received and Staff has also negotiated with the Contractor. The Contractor has now submitted a proposed final Guaranteed Maximum Amount for Construction of $17,979,409 which exceeds the Project Budget of $16,485,377 by $3,494,032.

The Agreement, Summary of Work, section 1.3 A., entitled "Pre-Construction Services", subsection "(xxvii)", provides the District with the option of not proceeding with the construction of the Project if the proposed final Guaranteed Maximum Amount for Construction received from the Contractor exceeds the Project Budget and for the termination of the Site Lease, Facilities Lease, and remainder of the Agreement.

Should the District exercise that option, the Contractor is to be paid for its Pre-Construction Services, the contract documents are terminated, and the District is required to pay to the Contractor per the Agreement, Summary of Work, section 1.3 A., subsection (xxvii): (1) any unpaid sums then outstanding, due and owing, to the Contractor for services performed, less any withholds permitted by the Agreement and/or Applicable Law; (ii) plus a sum equal five percent (5%) of total net amount thereof. The unpaid outstanding sums, now due and owing to the Contractor for services performed, less any withholds permitted by the Agreement and/or Applicable Law is $3,591.44. The five percent (5%) of total net amount of item "(1)" is $179.58.
Staff recommends that the District reject the proposed final Guaranteed Maximum Price, and terminate the Site Lease, Facilities Lease, and the Agreement for the Project given that the proposed final Guaranteed Maximum Price exceeds the Project Budget of by $3,494,032; and pay to the Contractor the amounts listed immediately above, if any.

The Resolution (Attachment 1) contains further details which should be considered as part of Com. No. FPD4 - Staff's Report and Recommendation to the Board – and which is incorporated herein as if set forth at length hereat.

WHEREAS, on December 3, 2014, the Board authorized a Site Lease, Facilities Lease and a Construction Services Agreement with Balfour Beatty Construction ("Contractor") for the project commonly known as the North of Mall Campus Improvement project, which included the renovation of four (4) buildings which were part of North of Mall Phase II ("Project") ("Agreement");

WHEREAS, pre-construction services for the Project are now complete and Division of State Architect approval has been obtained;

WHEREAS, as required by the Agreement, the Contractor has now submitted a its proposed final Guaranteed Maximum Amount for Construction of the Project in the amount of $17,979,409;

WHEREAS, the Agreement, Summary of Work, section 1.3 A., entitled "Pre-Construction Services", subsection "(xxvii)", provides the District with the option of not proceeding with the construction of the Project if the proposed final Guaranteed Maximum Amount for Construction received

the Site Lease, Facilities Lease, and remainder of the Agreement;

WHEREAS, the Agreement, Summary of Work, section 1.3 A., subsection
xxvii provides that should the District exercise this option, the Contractor is

Agreement in the amounts set forth above, if any; and

4. Authorizes District Staff, specifically the Chancellor and/or the
Interim Chief Facilities Executive, to execute the document(s)
necessary to implement same.

As currently in force and effect, the current PLA includes Proposition A/AA and Measure J Bond funded projects, as well as certain projects built with District General Fund money, but does not include projects funded by Measure CC Bonds approved by the voters on November 8, 2016.

The purpose of the requested Amendment is to incorporate projects funded with Measure CC Bond funds into the current PLA as set forth in the proposed Amendment which is attached as "Exhibit A" to the proposed Resolution that accompanies this item.

The District sent the proposed Amendment to Mr. Ron Miller, Executive Secretary for the Los Angeles/Orange Counties Building and Construction Trades Council and their legal counsel for review, and both support the proposed Amendment.

SUBJECT: REVISE BOARD RULE CHAPTER X, ARTICLE III – SELECTION POLICIES et seq.

10301. SELECTION AND ASSIGNMENT OF FACULTY.

It is the policy of the District to employ faculty members who are expert in their subject areas, who are skilled in teaching and serving a diverse student population, and who can foster overall educational effectiveness. Those individuals must have demonstrated sensitivity to and understanding of the diverse academic, socioeconomic, cultural and ethnic backgrounds, as well as the disabilities of the populations the colleges serve, and they should generally reflect that diversity themselves. In addition, they must be well prepared to respond to the educational needs of all the special populations served by the District’s colleges.

Selection and assignment of faculty shall be based on job-related factors which include qualifications and capabilities. The use of any degree of personal, political, or social influence to secure selection or assignment to a faculty position, or the urging of any consideration other than fitness for the work as a ground for selection or assignment is unprofessional conduct and is strictly forbidden.

10302. EVALUATION OF ELIGIBILITY FOR EMPLOYMENT OF FACULTY.

Faculty shall be employed on the basis of competitive evaluation conducted under the general oversight of the Division of Human Resources and the president where the position to be filled exists. The process of evaluating individuals for eligibility for employment as faculty members shall be in accordance with hiring procedures that meet the standards and requirements set forth in Board Rule 10304, applicable provisions of the Education Code, Title 5 of the California Administrative Code, and relevant Human Resources Guides adopted under these Board Rules.
10303. MAINTENANCE OF CONTINUOUS FACULTY RECRUITMENT PROCEDURES.

The Division of Human Resources shall develop and maintain District recruitment procedures for soliciting a diverse group of potential applicants for all faculty positions as a resource for faculty searches. The Division shall also assist the colleges in making effective use of the recruitment procedures whenever the colleges seek to fill a faculty position.

10304. FACULTY HIRING.

The Board and the faculty, represented by the Academic Senate, share the responsibility for developing and implementing policies and procedures governing the hiring process. This policy, developed and agreed to jointly by representatives of the Board of Trustees and the District Academic Senate, shall govern the selection of faculty at the colleges within the District. For the purposes of this policy, the term "President" means the President of a college or his or her designees, and the term "Academic Senate" means the college Academic Senate.

The Board has the primary legal and public responsibility for ensuring an effective hiring process. As reflected in State law, faculty have an inherent professional responsibility in the development and maintenance of the quality of the District's and colleges' educational programs and services. For that reason, significant and meaningful faculty participation in the hiring process is essential, and it is the Board's expectation that faculty recommendations regarding the qualifications, experience, and desirability of candidates for faculty positions will normally be accepted. Nevertheless, the President shall exercise formal decision-making authority in the hiring process, and all recommendations regarding faculty hiring shall be advisory to the President. No one may be hired as a probationary, long-term substitute, limited status, or hourly rate faculty member unless he or she possesses:

A. the minimum qualifications for that assignment specified by the Board of Governors of the California Community Colleges (the State Minimum Qualifications); or

B. qualifications that are at least equivalent to the relevant State Minimum Qualifications;

C. qualifications set by statute or regulation; and
D. in addition to other minimum qualifications specified in sections A, B and C, the minimum qualifications for a faculty member teaching any credit or noncredit course shall include a current valid certificate to work or a license to practice in California. Such requirements shall be adopted whenever the instructor's possession of such a certificate or license is required for program or course approval by the Chancellor's Office of the California Community Colleges or an external approving/accrediting agency or when current occupational certification is essential for effective instruction, as determined by mutual agreement between the Board of Trustees and District Academic Senate.

The colleges shall conduct faculty hiring in a way that takes into account the District’s equal employment opportunity obligations, its goal to employ a diverse faculty, and its commitment to affirmatively recruit individuals from groups that are historically under-represented among the faculty at a college or within a discipline. Search committee participants shall complete appropriate training in diversity and equal employment opportunity principles pursuant to LACCD's Equal Employment Opportunity (EEO) Plan.

10304.1 Probationary (Contract) Faculty Hiring.

1.0 Position Identification and Prioritization

The need to consider filling a faculty position can arise under many circumstances as determined by the college. To provide a means by which those needs will be addressed at a college, the President working in collaboration with the Academic Senate shall develop college procedures specifying how proposals to fill contract faculty positions at the college will be prepared, the criteria that will be used to evaluate the proposals, and the process by which proposals will be reviewed and approved. The procedures adopted by each college should be designed and implemented in a way that will permit a thorough and deliberate search to be completed, and a hiring decision to be made, well before the beginning of the academic term during which the new contract faculty member will begin work.
2.0 College Procedures for Hiring Probationary (Contract) Faculty

The President and Academic Senate at each college shall develop mutually acceptable written procedures governing the search and selection process for contract faculty that comply with the following minimum requirements and any relevant Human Resources Guides adopted under this Board Rule:

2.1 The procedures shall incorporate provisions that ensure that the responsibility for recruiting and selecting well-qualified faculty is a joint responsibility of the faculty and the administration. The procedures shall also require all those involved in the hiring process to adhere to the following fundamental criteria when reviewing application materials, conducting interviews, or otherwise evaluating candidates:

A. the extent to which the candidate has command of, or brings expertise in, the discipline or subject area in which he or she will be employed;

B. the candidate’s demonstrated ability as, or potential to become, a skilled teacher, counselor, librarian or other support professional; and

C. the degree to which the candidate will contribute, directly and indirectly, to the diversity of the college, division, and discipline in which he or she will be employed.

2.2 Under the college procedures, the first step in initiating a search shall be the formation of a search committee composed of at least three members, a majority of whom shall be faculty members in the discipline (or, if the Academic Senate deems it appropriate, closely related disciplines) of the position to be filled, and a non-voting equal employment opportunity representative. Working with the members of the discipline, the search committee shall
Board of Trustees
Los Angeles Community College District

prepare a job announcement to be used in announcing the job opening for approval by the President. The job announcement shall describe at a minimum:

A. the duties and responsibilities the contract faculty member will be expected to assume;

B. the minimum qualifications for the position established by the Board of Governors of the California Community Colleges (the “State Qualifications”);

C. the knowledge, skill and ability a successful candidate should possess; and

D. other characteristics the college determines to be desirable including, but not limited to, demonstrated sensitivity to and understanding of the diverse academic, socioeconomic, cultural, and ethnic backgrounds, as well as the disabilities of the special populations the college serves.

2.3 While the job announcement shall fully describe the desirable academic preparation, experience and other characteristics sought in a candidate, the minimum qualifications specified in the announcement shall be the same as the State Qualifications. The committee may, however, add to the State Qualifications any appropriate language requiring evidence of a) the ability to communicate and work effectively with people of diverse cultures and language groups and b) sensitivity to individuals who come from diverse academic, socioeconomic, cultural and ethnic backgrounds, including those who have disabilities.

2.3 Working with the members of the discipline, the search committee shall prepare a job announcement to be used in announcing the job opening for approval by the President. The job announcement shall describe minimum and desirable requirements:

A. the duties and responsibilities the contract faculty member will be expected to assume:
B. the minimum qualifications for the position established by the Board of Governors of the California Community Colleges (the "State Minimum Qualifications");

C. The CCR Title 5 requirement of demonstrated sensitivity to and understanding of the diverse academic, socioeconomic, cultural, and ethnic backgrounds, as well as the disabilities of the special populations the college serves;

D. the knowledge, skill and ability a successful candidate should possess;

E. The committee may suggest desirable qualifications; however, the desirable qualifications should never include the MQ's from another discipline.

The recruitment period for each search should be several months long (preferably beginning in the early spring for positions that are anticipated to be filled for the subsequent fall term, or at least a full semester in advance of the start of the assignment for other positions) but the procedures shall specify a recruitment period of no fewer than a minimum of six weeks.

2.5 2.4 The procedures in each location's policy shall identify decision points at which the overall size and diversity of the applicant pool will be reviewed to determine if they are satisfactory, based on availability data, diversity goals, and other relevant factors. Following such a review, if the President, or their designee determines that the size or diversity of the applicant pool of candidates who responded to the college's job announcement is not satisfactory, the procedures shall require and extension of the recruitment period. In that event, the procedures shall also require the search committee to initiate additional recruitment efforts.

2.62.5 To be considered as a candidate for a faculty position, all applicants must submit to the District or the college a cover letter summarizing the candidate's qualifications for the position along with a completed application for employment on a form specified by the District; unofficial transcript(s) from an accredited institution;
2.72.6 The procedures shall identify the manner in which the search committee will review application materials and invite candidates to meet with the committee for an interview. The interview process may include or participate in any other skills/teaching demonstrations, or evaluation process required by the committee.

The invited candidates will be those who, as determined by the search committee, best meet the qualifications for the position; possess the highest degree of knowledge, skill and ability relevant to the position; and most closely match the desirable characteristics specified in the announcement for the position. Meeting the State Minimum Qualifications will not guarantee an interview.

2.82.7 Under the college's procedures, the search committee shall be charged with recommending finalists to the President. The minimum number of candidates the search committee is expected to recommend as finalists; and the manner in which those finalists will be reviewed and considered shall also be set forth in the procedures. These college procedures shall include background and reference checks before a finalist is selected for hire.

2.92.8 The procedures shall address the manner in which candidates will be kept informed of the progress of the search and the status of their candidacy throughout the selection process. The goal shall be to ensure that communication with candidates should occur in a timely and professional manner. This responsibility rests primarily with the President, or his or her designee.

2.102.9 An offer of employment cannot be extended to a candidate until the candidate has been deemed to meet the State Minimum Qualifications by the Vice Chancellor of Human Resources, or their designee, and the request to appoint the recommended candidate
is approved by the Chancellor or, their designee, or, if appropriate, by the Board.

10304.2 Temporary Faculty Hiring: Long Term Substitutes and Limited Status Faculty.

The President and Academic Senate at each college shall develop written procedures governing the search and selection process for long term substitutes and limited status faculty that comply with the minimum standards set forth in Section 2.0 of Board Rule 10304 regarding Faculty Hiring (and any relevant Human Resources Guides adopted under those sections), with the exception that the recruitment period for long term substitute and limited status faculty positions may be fewer than six weeks, but no fewer than three weeks.

10304.3 Temporary Faculty Hiring: Hourly Rate Faculty.

The President and Academic Senate at each college shall develop written procedures governing the search and selection process for hourly rate faculty. The procedures should be designed and implemented in a way that will permit a thorough and deliberate search to be completed, and a hiring decision to be made, well in advance of the starting date of the hourly rate assignment for which the faculty member is being employed. However, the procedures also need to provide for the fact that early recruitment and selection of hourly rate faculty is occasionally impractical because of such unforeseen circumstances including but may not be limited to the need to meet the unanticipated demand for a discipline or a specific course or the inability of the faculty to teach his or her course(s) due to illness. For that reason, to account for these situations, the procedures need to provide appropriate flexibility to those involved in the hiring process so that they are able to identify and hire hourly rate faculty in a timely manner, when that is necessary.

10304.4 Acknowledgements.

Nothing in this rule shall be construed as impinging upon the due process rights of faculty, or as detracting from any negotiated agreement between the faculty’s collective bargaining representative and the Board of Trustees.
10304.5 Amendments and Revisions.

1.0 The Board shall consult with the District Academic Senate before adopting any amendment to or revision of this Board Rule, and in acting on any proposed amendment or revision, the Board shall rely primarily on the advice of the Academic Senate.

2.0 The Chancellor or their designee shall consult work with representatives of the Academic Senate in developing any Human Resources Guides or similar administrative regulations implementing this Board Rule. The Chancellor or his or her designee shall also consult with representatives of the District Academic Senate before amending or revising any such Human Resources Guide or administrative regulation.

10305. THE EQUIVALENCE POLICY FOR FACULTY QUALIFICATIONS.

No one may be hired as a probationary, long-term substitute, limited status, or hourly rate faculty member unless he or she possesses:

A. The State Minimum qualifications for that assignment specified by the Board of Governors of the California Community Colleges (the State Qualifications); or

B. Qualifications which the Academic Senate has determined are equivalent to the relevant State Minimum Qualifications (MQ's); and

C. Individuals who have completed college or university course work at an institution in a country other than the United States, must obtain a complete evaluation of foreign transcripts and degrees is required.

It is the expectation of the Board that faculty members will establish their qualifications by demonstrating possession of the exact degree or experience specified in State MQ's, and that only rarely will candidates need to establish their qualifications through the equivalence process.

The Chancellor, in consultation with the District Academic Senate, will establish procedures under which current and prospective faculty members may seek a determination that they possess qualifications that are equivalent to the relevant State MQ's. A determination reached through the procedures shall be deemed to be a
determination of the Board unless, on appeal, the Board itself chooses to review the decision and, after receiving written recommendations from the District Academic Senate (DAS) and the Chancellor, render a decision on the matter itself. If, for compelling reasons, the Board’s decision is contrary to the DAS recommendation, the Board will provide a written explanation to the DAS.

10306. **FILLING VACANCIES WITH EXISTING EMPLOYEES.**

The District may fill any vacant position by the transfer of existing faculty, consistent with the Education Code and any negotiated agreement between the collective bargaining representative and the Board of Trustees, at any point in the hiring process prior to the issuance of a job offer to the candidate.

10306.5 **Selection of Entrance-Level Substitutes.**

Selection of certificated entrance-level substitutes shall be from the appropriate eligible list according to their availability to accept substitute employment. Candidates who are available for day-to-day substitute assignments and are approved by the Division of Human Resources shall be placed on the horizontal eligible list for day-to-day substitutes. Acceptance of a substitute, temporary, or limited assignment shall not affect the eligibility of any applicant for assignment to a probationary position. Applicants may be approved for the day-to-day substitutes list without being on the eligible list for a regular position.

10307. **SELECTION OF ACADEMIC ADMINISTRATORS.**

Each College and the Educational Services Center shall develop written procedures in accordance with the applicable provisions of the Education Code, Title 5 of the California Administrative Code, the relevant Human Resources Guides and under these Board Rules governing the selection of academic administrators. Search committee participants shall complete appropriate training in diversity and equal employment opportunity and affirmative action principles pursuant to LACCD’s EEO Plan. 3. Ask students and counselor designee to sign the Student Commitment document and submit to Transfer Enrollment Services at LMU in a timely manner so that Loyola Marymount University can contact these students and extend to them assistance and resources for a successful transfer.
