

LOS ANGELES COMMUNITY COLLEGE DISTRICT

CITY / EAST / HARBOR / MISSION / PIERCE / SOUTHWEST / TRADE-TECHNICAL / VALLEY / WEST

January 14, 2022

This message is being sent to all LACCD employees from the District's Emergency Operations Center with a **priority update on vaccination status**. A similar message will be sent to all students.

Vaccinations

Health officials now define "[fully vaccinated](#)" to mean **only** when you are up-to-date on your vaccines. This means you have successfully completed the original one- or two-shot vaccine AND you have received a booster shot when eligible.

If you have received your initial dose(s) and are not yet eligible for a booster, you are still considered fully vaccinated. If you are eligible for a booster, but have NOT received it, you are NOT considered to be fully vaccinated.

Once you have received your booster, update your records in your Cleared4 account AS SOON AS POSSIBLE. The District will begin running verification checks starting on January 24, 2022 to determine who has met the new criteria for being fully vaccinated.

[Get vaccinated; get your booster](#) as soon as you are eligible AND upload your vaccination records into your Cleared4 account as soon as you have updated information.
